

**We get the
job done.**

**Gaetano
Giacalone**
President

Our slogan, **“We get the job done,”** speaks volumes about why we founded 13ZERO3 in 2009.

My background as an electrical contractor working for GCs set the stage for my desire to fix what I saw was broken in the industry. Jobs were unorganized.

Paperwork was a nightmare, and subcontractors were often not paid in a timely fashion.

We knew how to relieve the stress on project owners, GCs, and the subcontractors. We solve operational and management challenges.

13ZERO3 has achieved 250% growth, with defense contractor General Atomics, one of our most valued customers.

**Let's start a conversation about
your current or next project!**

Construction Services

13ZERO3 Construction provides first-rate construction services to clients throughout Southern California. We take great pride in the quality of our work, how we perform it, and the long-term relationships we have established with our clients. We have built a reputation over the years for quality and professional construction.
